Phone 87

Okotoks, Alta, June 28th, 1918.

The Publisher at Coleman, Alta.:

Dear Sir:—Now that the registration of the man and woman power of Canada has taken place, I am sure you will be willing to thank the citizens of Coleman for their help and for the patriotic spirit in which registration was undertaken at Coleman. I think a very thorough organization was made at Coleman through your branch of the Patriotic Fund under the supervision of Mr. Ouimette and the fact that all the work was done without any remuneration should be made known to all.

Yours truly, R. KNOWLES.

COLEMAN WINS SECOND PRIZE AT LETHBRIDGE.

Coleman was largely represented at Lethbridge on July 1st, teams from the International and McGillivray mines taking part in the Rescue and First aid contests. Drumheller and Coalhurst took first and second places in the Rescue event, while Michel and Coleman captured the honors in the First Aid. Through the explosion of an oxygen pump during the progress of the rescue work, Malcolm Morrison, of the Coleman team and two others were injured, and Hugh Dunlop substituted for the Coleman man. The Herald describes the First Aid contest as follows:

"Some fine turnouts were exhibited by the first aid teams.

And some snappy work was exhibited also. Five teams were entered in the senior contests, these being the Michel team, the Coleman team, the McGillivray team, the Commerce team and the Taber team. Their work was staged on the platform in front of the grandstand. The doctors who acted as judges were Dr. Galbraith and Dr. Leech, Lethbridge; Dr. Inkroate of Diamond city and Dr. Ross of Coleman. Michel team won first and Coleman team second."

The personnel of the Coleman team was as follows: R. Morgan, Dick Greenhalgh, D. Roberts, Ted Barnes and James Glendenning, and the prizes were handsome gold medals presented by the C.P.R.

B. N. WOODHULL, Editor and Publisher.

COLEMAN, ALBERTA, FRIDAY, JULY 5th, 1918

Editorial Comment

The prevalence of summer weather is indicated by the inclination to don lighter costumes than those popular in weeks past.

The first fine reported in Saskatchewan levied against a man who failed to produce his registration certificate was one of \$2 assessed against Albert Killian at Colgate.

M. A. Taylor, a U.S. treasury official, intimated to 600 mid-western bankers that money would be conserved if it did not come more freely. Hereafter the bankers agreed to take \$750,000,000 treasury notes.

Evidence in concrete form is present in this issue that the Coleman schools have been busy during the term closed. Considering the number successful at the promotion exams, the youthful mind is being taught to shoot with a vengeance.

Among the many slogans which are being used in these days is one that demands some attention. It says "A pig in every back yard." But the result would be to transfer our cities into huge hog pens, and the live pig in every back yard would mean, in many instances, a dead baby in the home.—The Searchlight.

King George is discovered learning how to pitch a baseball. Next we find him sitting at an oilcloth-covered table eating buckwheat cakes and maple syrup. If old Kaiser Bill thinks we aren't a democratic lot, just let him hear of King Georges pranks. And eating buckwheat cakes and pitching baseballs isn't bad business for a merry monarch either. We think more of King George now than ever.—Lethbridge Herald.

Captain W. G. Barker, D.S.O., M. C., and bar, of Dauphin, Man., has the credit of having destroyed 27 German machines, and having driven down six others out of control. Next to Major W. A. Bishop, Barker probably has more victories to his credit than any other Canadian man. Captain Barker is 23 years old. He left Canada as a private in the Mounted Rifles in 1915, got a commission in the flying corps in 1916 and has since been decorated five times for gallant conduct.

Great Britain must turn over its war fleet to Germany, return Gibraltar to Spain and restore Egypt and the Suez Canal to Turkey. Great Britain, France and the United States must pay Germany an indemnity of at least \$45,000,000,000. Belgium and French territory must be surrendered. These are among the conditions included in the German peace programme published by the Nachrichten of Goeritz, Prussia, by Count Roon, a member of the Prussian house of Lords, according to a Havas dispatch from Basle, Switzerland.

LABOR ORGANIZATION IN CANADA PROGRESSIVE

Annual Report of Department of Labour Shows Membership of Unions Has Largely Increased During War Period Despite Large Number of Enlistments—Contains Interesting Statistical Facts in Regard to Trade Unionism.

The seventh annual report on Labor Organization in Canada, containing statistical data, etc., for the calendar year 1917, has been issued by the Department of Labor. The figures show that trade union membership in the Dominion has reached the highest point recorded since the Department commenced the publication of these annual reports in 1911, the total numerical strength at the close of the year 1917 being 204,680. In all there are 1,974 local branch unions in Canada, 1,702 comprising 164,800 members, being affiliated with international organizations, 244 with 32,343 members are connected with non-international bodies and 23 having 7,391 members are independent units. There was an increase of 79 local branches during the year, and a membership gain of 35,773; the non-international bodies had an increase of 55 branches and 9,459 members, and the independent units had an addition of one, but the reported membership shows a loss of 1,000. The membership of all classes of organized labor in Canada as reported to the Department for the past seven years has been as follows:

1911	133,132
1912	109,120
1913	175,900
1914	166,163
1915	143,343
1916	160,407
1917	204,680

Strength of Trade Unions in Chief Cities.

Of the 1,974 local trade union branches in Canada 944 are located in 21 cities, and 944 reported a membership of 85,527, representing approximately 42 per cent of the entire trade union membership of the Dominion. Montreal, with 123, has the largest number of local branches in any city, and 76 of them reported 15,914 members; Toronto comes second with 118 branches, 76 of which reported 15,546 members.

The statement for the 21 cities is as follows:

CITY	No. of Unions	No. Reported	No. of Members
Montreal	123	76	15,914
Toronto	118	76	15,546
Winnipeg	80	47	7,073
Vancouver	70	52	9,904
Hamilton	53	42	3,451
Calgary	48	43	3,590
Ottawa	45	39	3,900
London	47	32	2,837
Edmonton	46	30	2,078
Quebec	40	51	3,743
Victoria	39	28	2,953
Fort William	30	15	1,656
Regina	27	23	858
Halifax	25	14	2,048
St. John	23	13	1,285
Saskatoon	23	10	968
Moncton	22	15	2,175
Brandon	21	16	889
Moncton	21	14	1,781
Lethbridge	20	13	1,101
Sault Ste. Marie	20	11	2,282

Trade Unionists and Military Service.

A statement indicates the extent to which the trade unionists of the Dominion have voluntarily contributed to the Canadian expeditionary forces since the outbreak of the war in August, 1914. Enlistment of one or more members has been reported by 1,333 local branch unions, the recruits numbering 27,438 and reservists 602, a total of 27,130 trade unionists in the ranks. The province of Ontario supplied 9,807

of the total of 26,438 recruits and 297 reservists out of 692, about 37 per cent of the enlistments, the city of Toronto furnishing 5,444. There were 43 other localities in the province which had not fewer than 25 enlistments to their credit. British Columbia supplied 3,466 recruits and 155 reservists, the city of Vancouver contributing 1,881 of the former and 63 of the latter named.

The other provinces rank in the following order: Alberta, 3,340 enlistments, the city of Calgary supplying 1,000; Manitoba, 2,535, Winnipeg supplying 1,775; Nova Scotia, 2,348, the port of Halifax supplying 1,100; Saskatchewan, 1,084, Regina supplying 355; New Brunswick, 998, St. John supplying 787; Prince Edward Island, 66, all of which were reported from Charlottetown.

Trade Union Beneficiary Disbursements.

The majority of the international labor organizations operating in Canada have benefit features on a varying scale. A table is furnished showing the expenditure made in the United States, Canada and elsewhere on this account, the disbursements for 1917 being \$13,175,379, an increase of \$873,261 as compared with the payments made in 1916. The payments for each class of benefit were:

Death benefits	\$8,130,800
Sick and accident benefits	2,348,689
Strike benefits	2,107,550
Old age pensions	367,705
Unemployed and travelling	121,667

Benefits Paid by Local Branches.

A statement is also published showing the amount paid in benefits for the years 1917 by local branch unions in Canada to their own members. The payments made on each of benefit were:

Death benefits	\$118,373
Sick benefits	65,912
Strike benefits	40,527
Unemployed benefits	5,562

Use of Alberta Coal Is Increasing.

Some difficulties are arising as a result of the more stringent regulations as to food and fuel, but these are lessened by the growing disposition on the part of the public to co-operate with the Government. In the west some local concern was manifested owing to the Fuel Controller's announcement that only a limited supply of hard coal could be shipped further west than Manitoba, Pennsylvania anthracite coal being the fuel chiefly used in Winnipeg. To provide for their requirements the public have been urged to obtain coal mined in Western Canada, and as a result the amount of Alberta coal shipped eastward has increased substantially, and further increases due during the summer and fall. The amount of coal mined in Alberta during the first three months of this year was 81,772 tons as compared with 74,700 tons last year.—Canadian Bank of Commerce Weekly Letter.

Most Heat from Fuel

One reason why the Kootenay Range gives the most use of the heat generated from the fuel, is that the grates have ample vent to make perfect combustion in the firebox, which is properly and scientifically proportioned according to the needs of the range.

LOCAL AND GENERAL

Miss A. J. Riley, of Calgary,
is visiting her sister, Miss M.
Riley.

Quite a number of Coleman-
ites are in Calgary taking in
the Fair.

Vancouver and Victoria street
railways are tied up by a strike
which began on Tuesday.

The Liberty motor has made
good on trial, surpassing the
European makes in effect-
iveness.

The new platform at the de-
pot is a decided improvement
upon the old one, though con-
siderably shorter.

Rev. J. G. Rice, of Robertson
College, Edmonton, occupied
the pulpit of the Institutional
church last Sunday evening.

Mr. and Mrs. Bayns spent the
week end with Mr. and Mrs.
Harry Bolton at the lake, having
an enjoyable time with Mr.
Muir's launch.

Cecil Gower and family are
touring the prairies in their
McLaughlin car. Their itiner-
ary will include Limerick, Sask,
where a brother of Mrs. Gower
resides.

Buy your goods from the
stores that advertise. The de-
aler who wants your business
and goes after it in the open is
bound to prove satisfactory from
the buyers standpoint.

The O. K. Livery barns at
Cardston were burned on Mon-
day night. A racing horse and
a quantity of wool stored in
the upper story were destroyed.
The loss amounted to \$15,000.

H. C. Boucher, of the Bank of
Commerce staff has returned
from his holidays in which he
visited Calgary and Lethbridge
and mortored to many of the
intervening points of interest.

On his trip east Dr. O'Brien
took a special course in X. Ray
treatment in Chicago. He had a
most enjoyable trip in every
way and returned showing the
benefit of the change.

The Boys Summer Camp has
been in progress during the
week and although the attend-
ance is very small this year a
pleasant time is being spent. It
is anticipated there will be a
large turnout next week when
the girls and adults will go into
camp.

The following collections and
donations have been received by
the Sec.-Treas. of the Red Cross
for month of June: cheque, Geo.
Pelletier, \$53.50; Town Collec-
tions, \$25.00; Miss Martin, \$4.00;
Mrs. Riddell, \$10.00; S. Yorka,
\$1.00; Total, \$93.50.—R. M. Dun-
lop Sec.-Treas. Red Cross.

On Sunday, 7th July the Rev.
J. W. Stevenson M.A., will oc-
cupy the pulpit of the Institu-
tional church at 11 a.m. In the
evening the Rev. J. P. West-
man, Calgary, will conduct the
service, and the boys from the
summer camp will be in attend-
ance. All are cordially invited
to these services.

The picnic of the Institutional
church Sunday School on Mon-
day, July 1st, was a big success.
There was a large attendance of
parents and children. The day
was ideal and the "ball ground"
made an ideal picnic place. The
races were keenly contested and
the various other sports indul-
ged were prosecuted with vigor
and enjoyment. The children
say it was the "best yet."

The dance under the auspices
of the Ladies of the Coleman
Next-of-Kin Association May
23rd was a decided success fi-
nancially. The statement fol-
lows: Money taken at door,
\$224.50; expenses, \$94.00; bal-
ance \$130.50. The latter amount
was handed over to the secre-
tary of the Association. "The
ladies responsible for this
outstanding success were Mrs.
J. Richards, Mrs. M. A. Johnson
and Miss M. Chalmers.

In purity, delicate medication, refreshing fragrance, convenience and economy, Cicuta Soap and Ointment meet with the approval of the most discriminating. Ideal for every-day toilet uses.

For sample each by mail address postpaid, enclosing three-cent stamp. A. B. Cicuta Co., 1000 Broadway, New York, N. Y.

Beating the Home Tax

"Hicks promised to give his wife a dime for every one he spends for cigars."

"How does it work?"

"First rate. You see we meet every day and he buys me the drinks and I buy him the cigars." Boston Transcript.

WORDS OF PRAISE FOR BABY'S OWN TABLETS

No medicine receives such great praise from thankful mothers as do Baby's Own Tablets. Once a mother has used them for her little ones she will use nothing else. The Tablets are a mild but thorough laxative. They regulate the bowels and stomach, drive out constipation and indigestion; cure colds and simple fevers; promote healthy sleep and make teething easy. Concerning them Mrs. Omer LeBlond, Maddington Falls, Que., writes: "I am well satisfied with Baby's Own Tablets and will always recommend them for my little ones." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Some Vacation

Husband—Murrain! I've got a week's vacation.

Wife—How nice. Now you can dig the garden, clean out the cellar and whitewash the kitchen—Salon News.

Miller's Worm Powders, being in demand everywhere, can be got at any chemist's or drug shop, at very small cost. They are a standard remedy for worm troubles and can be fully relied upon to expel worms from the system and abate the sufferings that worms cause. There are many mothers that rejoice that they found available so effective a remedy for the relief of their children.

Hun Propagandists

Shower Italians With Transparent Lies to Cause Trouble

A new German propaganda, designed to destroy the Italian people's confidence in the American people, was disclosed in official despatches, saying thousands of copies of German newspapers had been distributed in Italy, carrying a story saying the recent message of President Wilson to Italy was addressed in fact to France, and that the Italian government had substituted the words "Italy" and "Italian."

Aviators dropped copies of the publications in Italian territory, but the Italian soldiers, the despatches said, were not to be deceived, and received them with ridicule.

As an explanation of the propaganda, officials suggest that the Austro-German authorities might be in fear of an Italian offensive.

Influx of Settlers

Land Buyers are Flooding to Southern Alberta

With the completion of seeding operations in the middle and north-western States, there has been a new influx of land buyers into Southern Alberta, which bids fair to rival that which occurred during the latter part of February and the whole of March. New deals are being put through daily. One of the largest that has just been consummated, comprises 4,800 acres situated about twenty miles south of Grassy Lake, Alberta, which has been purchased by Idaho parties for \$102,000. Part of this land is already cultivated, and the remainder will be broken this summer ready for crop next year. A firm of land agents, handling irrigated land, claims to have sold land to the value of a quarter of a million dollars during the last month.

In the Lethbridge district there will be almost two million acres in crop this year. In 1915 nearly fifty million bushels of grain, mostly wheat, were produced on 1,300,000 acres. It is the hope of every farmer in Alberta that this great record will be beaten this year.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Expeller to give relief. Its effects are sure and lasting.

Hats Off to Canada

Spirited Answer to the Call of Civilization, Liberty and Enduring Peace

Mr. Root showed his customary keen perception of the historic significance of events when, at Toronto recently, he said: "We bow to this warrior country. The British Empire, which has stood for half a century, stands at the foot of the Canadian flag. The response of Canada to the call of this war was not merely the response of obedience to the British Empire. It was a brave, an instant, a most spirited answer to the call of civilization, liberty and that enduring peace the world which can be based only on the triumph of right over wrong. Canada did not falter, nor bargain, nor question. She responded with her noblest manhood, and the blows which she has struck against a power which has proved to be our enemy, have been as much as her own. She has had her full force in holding back the German invader from the free lands. On Vimy Ridge she carried the standard, they still stand like a rock. If the United States had not been there, the German would have triumphed. It is the promise of our man power with which Canada responded, the German armies would have been overwhelmed. The Rhine long ago. Yes—we take off our hats to Canada.—From the Boston Transcript.

Fifty Thousand Men Wanted

It is estimated by a parliamentary commission that 50,000 men will be needed for the harvest in Canada, from August 1st to September 1st.

Facts for Health Seekers To Ponder Over

Nearly every disease can be traced to clogged or inactive stomach, liver or intestines. Indigestion, biliousness, headaches and insomnia, all emanate from this cause. Keep these organs in working order and you'll have continuous good health. No case was ever treated with Dr. Hamilton's Pills and not cured; their record is one of marvelous success. Dr. Hamilton's Pills are very mild, yet they cleanse the bowels promptly and establish healthy regularity. You'll eat plenty, digest well, sleep soundly, feel like new after using Dr. Hamilton's Pills—one a dose—25¢ a box everywhere. Be sure you get the genuine Dr. Hamilton's Pills, in a yellow box always.

How Alberta is Developing

Land in School Districts is Now Under Cultivation

The development of the country around Cairns, Alberta, is characteristic of many parts of this province. Today, says a writer in the Edmonton Bulletin, from a high point in the district, thirteen schools can be seen. In 1910 only one of these schools was built. All the land in these school districts is now under cultivation. At threshing time fourteen threshing outfits have been visible from the same spot, with many more probably working in the area of the landscape panorama but not in plain view. Today the writer wonders how many threshing machines will be seen this fall in the same territory. In former years much land was stubbled, and the marks of the seeders and furrows shading the stubble of the previous year could be distinguished by the sharp eye of the observer on the hill top. But this year there is little stubbled land noticed. More thorough cultivation has never been observed in this settlement than this year.

Minard's Liniment Cures Colds, etc.

His Life Sentence

Bill and Enry had not met for some time, when quite unexpectedly they came across each other in the street. Noticing that his chum was looking downcast, Bill clapped him on the back and said:

"Well cheer, Enry! How are you gettin' on? Still workin' for the same people?"

"Yes," was Enry's sad reply. "Wife madder-in-law and ten kids."

—Answers.

Long Range Gun a Toy

Its Results Laughable Compared to Effects of French Artillery

Killing off a few non-combatants every fifteen minutes during daylight emphatically does not count in the war business. It does not even terrify the non-combatants. Such tactics will never win the war. What does count is the havoc wrought among the effects. The whole of March the German long-range toy fails. That is where the French cannon are most formidable.

Hundreds of letters and entries in diaries found on German prisoners reveal the terror French shells struck in the hearts of fighting men. A German machine gunner, recently captured, confided to his notebook: "The assault had to be stopped because of the violent tremor of the French. Very heavy losses in our regiment. At night we were relieved. It was time! For all our guns were going mad in that witches' caldron."

Another, a very young boy, wrote to his parents: "It is bitter, bitter hard! I am still so young! What is the good? What use praying, beseeching? The shells! The shells!"

Lieut. H. of the Eighty-first, states that "all roads are completely blocked by the French artillery. We cannot even bury our dead. The men starve for going out for food."

A German battery commander describes the massive firing of the French guns: "The French artillery preparation began. The fire of an entire battery was concentrated upon each 100 to 150 yards of our trenches. And I had to defend nearly six kilometres—about three and a half miles—with my six batteries. My guns began firing in the night. I received between 2,000 and 3,000 shots per battery. Guns, provisions and munitions vanished. So did most of our men. The rest were killed with gas. Masks don't protect men that are hard at work and have need of sleep. My battery was completely shattered. The second received 1,250 shots from a heavy French battery between 2:30 and 3:30 a.m. The shots were perfectly aimed."

The terror of fighting men, cowed in trenches that fail to protect speaks from these letters. With it compare the sturdy reception of the long-range novelty by the Parisians, and the failure of the latest tool of frightfulness.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. This disease requires constitutional treatment. The only reliable method of cure is through the blood on the Mucous Membrane. Dr. Williams' Pink Pills for Pale People are the only medicine that can cure this disease. Send for free literature. Address: Dr. Williams' Medicine Co., Toledo, Ohio. Sold by all Druggists, 75¢.

Economizing on Meat

People are Consuming More Meat Than is Desirable from Health Standpoint

Last year the average consumption of protein in meat, milk, eggs, fowl and cereals in the United States was 80 grams per day, while 60 is more than sufficient. Not only this, but babies, old people, and those who are ill, do not eat their own share, and the poor do not get theirs. So some people are eating between 100 and 150 grams per day. All of which means that Americans in consuming 80 grams of protein daily are attempting to dispose of about 35 grams more than have capacity to use. Our kidneys cannot take. They just have to stay mum until a hundred and one bodily disorders start to develop. Our kidneys are the cause of serious trouble. Then, as a rule, it is too late to apologize to the kidneys. Such people are not patriots, and are not helping to win the war. Why not benefit ourselves and institute meatless days, as well as increase the supplies for the armies?

The Pill That Leads Them All—Pills are the most popular and compact of all medicines, and when easy to take are the most acceptable of preparations. But they must attest their power to be popular. As Farmer's Vegetable Pills are the most popular of all pills they must fully meet all requirements. Accurately compounded and composed of ingredients proven to be effective, in regulating the digestive organs, there is no surer medicine to be had anywhere.

In the Garden

Some Short Cuts to Success in the Grower of Vegetables

The best way to get lettuce in mid-summer is to grow it in cold frames. Of course no sash will be needed on the frame, but the boards seem to protect the young plants from the hot winds, and they thrive far better than in the open ground. The squash borer is a difficult pest to deal with, because it works inside the stems, where it cannot be reached with poison. There is a simple way to foil this insect. You simply need to bury the stems at the joints every few feet. New rootlets will then be thrown out at each joint, and the plant will continue to grow, even though part of it may be destroyed.

The advice often given to pick all vegetables early in the morning when they are wet with dew is an excellent one, except as it applies to beans. Beans should never be handled while they are wet from any cause, as there is no quicker way to make them rust. This trouble is apt to result even when they are picked about by hand winds after a rain.

SMOKE TUCKETTS

Hans to Go Barefooted

"Go barefoot this summer and help the fatherland," is the latest patriotic catchword to be placarded in Germany.

In view of the alarming scarcity of leather, rich and poor alike should dispense with boots and shoes," says an explanation of the placard in the Rheinisch Westfälische Zeitung, of Essen. The old are urged to set an example for the young. "Why not walk on your bare feet this summer?" says the Zeitung. "Neither old nor young need be ashamed to walk barefoot anywhere—at home, in the streets, at school or in church."

LIFT YOUR CORNS OFF WITH FINGERS

How to loosen a tender corn or callus so it lifts out

Let folks step on your feet hereafter; wear shoes a size smaller if you like; for corns will never again be plagued. The corn or callus, you, according to this Cincinnati authority.

One says that a few drops of a drug called frezzone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out.

This drug dries at once and simply shrivels up the corn or callus without even irritating the surrounding tissue.

A small bottle of frezzone obtained at any drug store will cost very little but will positively remove every hard or soft corn of callus from one's feet.

If your druggist hasn't stocked this new drug yet, tell him to get a small bottle of frezzone for you from his wholesale drug house.

A War Child

Representative Ashbury Lever of South Carolina said in a Red Cross speech at Charleston:

"Food saving will greatly help to win the war. Let us all then be as saving of our food as a little girl I know in Newberry."

"Julia, said this little girl's mother the other day, 'did you peel your apple before eating it, as I told you to?'"

"Yes, ma'am," said Julia.

"And what did you do with the peeling?" said her mother.

"Ate it," said Julia calmly. Louisville Courier-Journal.

A German Admission

The Cologne Gazette, commenting on the Alkantra bridge over the Suez Canal, says that as a whole Great Britain's campaign in Mesopotamia and Palestine has been far from being a failure. The new bridge joins Africa and Asia and it must be admitted that it facilitates the transport of supplies to Palestine, says the German newspaper.

Delays are Dangerous!

The railways will be unable to handle the wheat crop this fall—

UNLESS

the people of Manitoba, Saskatchewan and Alberta get in the greater part of their coal for winter use at once—

There's lots of Coal in Alberta, but it is yet to be mined. Don't freeze this winter for lack of forthright now. Conditions were never like this before and we urge immediate placing of orders—for your own sake.

Machine Shearing and Dipping of Sheep

Demonstration to Farmers in Correct Shearing

With wool at its present high price, and the demand for far more of it than is now available, the proper shearing of sheep, and the protection of thrift through ridding them of all insect pests is a duty that cannot be neglected. That this fact, together with the fact that a large number of the small sheep owners are neither expert shearers nor particularly fond of the job, is recognized by the Manitoba government is shown by a new line of work which the department of agriculture has inaugurated, and which will be of great benefit to many sheep owners. Two experienced shearers are moving about through the province and shearing and dipping the flocks. They go about from place to place as fast as they can be transferred in an automobile, which will also carry the sheep shearing machine and dipping outfit. The shearing and dipping will be done on the owner's farm as far as possible, and the outfit will be able to handle 160 to 200 head of sheep a day, depending on the distance to be travelled between each farm. A charge of 25 cents a head is being made for the work, but bums will be dipped free of charge. The work is well under way and the outfit is to be accompanied by an official of the live stock branch of the Dominion government.

In addition to performing a useful work, the outfit will also afford a valuable demonstration to farmers in correct shearing and the benefits of dipping. Should the experiment prove a success, and the demand sufficient to warrant increasing the staff and equipment, it is possible that the field of operations will be enlarged next season.

To Help Farmer's Wife

Mr. T. M. Molloy, labor commissioner of the Saskatchewan department of agriculture, speaking recently at Regina, said: "Many of our city women desire to go to the farms and engage in the more spectacular work of driving teams or running tractors. The place where our women are needed today is in the kitchen of our farms, helping the farmer's wife. I am sure that the women of our cities and towns only need to know the extreme seriousness of the situation and they would volunteer for the kitchen work as our men are volunteering for land and trench work."

Minard's Liniment Cures Diphtheria

Begin at the Bottom

"Take a good look at this throat, my boy."

"What for?"

"And that you remember that if it were possible to get to the top at a single bound there would be no need for the bottom rungs."—Detroit Free Press.

Reducing the Cost of City Life

Bringing Down the High Cost of Living by Keeping Milch Goats

Residents of Vancouver, British Columbia, seem to be having some success in bringing down the high cost of living by keeping milch goats. Already a large number of people in this city are keeping goats in the back gardens, and the practice is becoming more popular. It is said that goats thrive exceedingly well in the city. In order that more of the inhabitants may have these animals, the city council has agreed to import a trial shipment of about 200 head from Texas. These are to be sold to residents of the city at a price which will cover expenses. Upon the success of this trial shipment will depend whether others will follow.

WOMAN'S NERVES MADE STRONG

By Lydia E. Pinkham's Vegetable Compound.

Winona, Minn.—"I suffered for more than a year from nervousness, and was so bad I could not rest at night—would be awake and get so nervous I would have to get up and walk around in the morning would be all tired out. I read about Lydia E. Pinkham's Vegetable Compound and thought I would try it. My nervousness was left me. I sleep well and feel fine in the morning and able to do my work. I gladly recommend Lydia E. Pinkham's Vegetable Compound to make weak nerves strong."—Mrs. ALBERT SUTZKE, 608 Olmstead St., Winona, Minn.

How often do we hear the expression among women, "an so nervous, I cannot sleep," or "it seems as though I should fly." Such women should profit by Mrs. Sutzke's experience and give this famous root and herb remedy Lydia E. Pinkham's Vegetable Compound a trial.

For forty years it has been overcoming such serious conditions as displacements, inflammation, ulceration, irregularities, periodic pains, backache, dizziness, and nervous prostration of women, and is now considered the standard remedy for such ailments.

Lethbridge Fair And Stampede.

The big Amalgamated Fair
and Stampede to be held in
Lethbridge July 22th to 27th
presents an attraction which
will eclipse any previous event
of this nature held in Canada.

The entertainment which
will be offered the visitor to
the Fair will satisfy the most
exacting. The management has
spared no expense in an endeavor
to secure the best performers
of the continent, and many
of these have signified their in-
tention of taking part in the
various events. In this connection
it is announced that Chester
Byers, who is generally conceded
to be the world's champion
trick roper, and Tex MacLeod,
who is an aspirant for premier
honors, will settle the question
of supremacy at the Lethbridge
Stampede. These boys have
been in receipt of flattering offers
from all over the continent, but
it remained for the Lethbridge
management to get them to-
gether and arrange for the con-

test. This attraction, it may
be confidently asserted, will be
well worth the full price of
admission. The Cowboy Buck-
ing Contest with saddle with its
prize of \$1000 is also to be a
feature event. A number of
real bad horses have been se-
cured, and the ability of the
best riders to stay in the saddle
will be severely tested. Practi-
cally all the Stampede events
will be pulled off on the race
track, thus insuring a close up
view from the Grand stand.
In addition to the Stampede
feature, the platform attrac-
tions will be lully up to the stan-
dard of other fairs, while a
good programme of horse races
will round out a performance
which will be replete with var-
iety, excitement and comedy.
The programme committee, in-
deed, have been to some diffi-
culty to make up the time
table for the various events,
with the result that at times
the spectator will imagine him-
self at a three ring circus, with
a performance on the platform,
race track and center-field, all
viewing with each other to en-
gage his attention. Every day
will be a big day from the time
the opening parade is started
on Tuesday morning until the
curtain is rung down on Sat-
urday night.

Local and General.

Thirty-three Billion cigaret-
tes were consumed in the States
last year--an average of 330 per
capita.

The "Billy Bungalow" Caste
spent a pleasant day at the
North Fork in charge of Mrs.
Graham.

Mayor and Mrs. Morrison and
little daughter of Coleman were
holiday visitors in the city--
Lethbridge Herald.

Advance signs indicate this
will be an extremely popular
issue of The Bulletin with a big
section of the community, the
boys and girls who anticipate
promotion through the school
exams.

CANVAS SHOES

We have received another shipment of these popular goods.
Seems as though we can't get enough of them this season. We
have a supply now for Men and Women, Girls and Boys and
also for the Wee Tots.

CALGARY ALBERTA

recently in which William Williams
and W. H. Rees, two Welsh miners
were the plaintiffs, and Local Union
No. 1503 of the United Mine Workers
of America, and six individual mem-
bers were defendants. The plaintiffs
though union members in good stand-
ing at the time were refused ad-
mittance to this local union on the two
occasions on which they made applica-
tion, and the union by threatening
the mine operators of the Rose Peer
mine at Wayne, Alberta, with a strike
which would tie up production, obtained
the plaintiffs' dismissal by their
employers.

His lordship finds that the plaintiffs
were competent miners, that they
were loyal trades unionists, and that
the local union by threatening a gen-
eral strike had prevailed upon the
employers of the plaintiffs to dismiss
them. He further finds that the plain-
tiffs made a very reasonable demand
when they requested that the accusa-
tion contained in the "insulting,
slandering and abusive" letter which
was the subject matter of the recent
criminal libel action against Thomas
Blegen, president of District 13 of the
U. M. W. A., should be retracted. His
lordship finds in conclusion that the
plaintiffs were deprived of a civil
right as a consequence of the defend-
ants' actions, and that the defendants
are liable for the damages suffered
by the plaintiffs as a result of such
deprivation.

The question of suing a trade union
is dealt with by the decision the judge
finding that the local union can only
be reached by suing the individual de-
fendants were members and two of
them officers of the local union, the
plaintiffs were therefore entitled to
judgment against all the defendants.
Each plaintiff is found entitled to
\$135.02 for loss of wages and \$100 for
general damages and costs of action.

J. D. Robertson for the plaintiffs
H. Ostlund, Lethbridge, for the de-
fendants.

A notification has been received
from the British Authorities to the
effect that the Parcel Post service for
Prisoners of war in Turkey or Bul-
garia is at present suspended. Until
this Service is resumed no parcels can
be forwarded to Prisoners of war in
Turkey or Bulgaria and persons de-
siring to help Prisoners of war in
these countries are advised to forward
remittances to them. These can be
sent by means of Post Office Money
Orders which are issued free of com-
mission. Particulars as to how to
proceed may be obtained from
Postmaster of Accounting Office.
Any parcels for Prisoners of war in
these countries which may be inter-
cepted in the course of transmission
will be returned to the sender, pro-
viding the name of the sender is
given on the parcel.

After one of the most succes-
ful and rapid cases of police
work that has been done in
the history of the province Pro-
vincial Police Corporal Allen
arrested Norman D. Keeler and
Edwin Salisbury on charges of
being responsible for six Grande
Prairie murders that have terri-
fied that district during the
past two weeks. The men were
arrested after a gun fight last-
ing for more than an hour in
which Keeler was wounded and
taken to the hospital at Grande
Prairie.

Profiteering on a tremendous
scale in virtually all the basic
commodities of life was reported
by the federal trade commission
as the result of an exhaustive
investigation.

"Inordinate greed and bare-
faced fraud," as well as "war
pressure for heavy production,"
the commission reported as the
causes.

Calgary, June 28.--Judgment was
handed down yesterday afternoon by
Mr. Justice Simmons in the action
tried before him in the supreme Court
